

Justin Baughn

Head of Product Design

Portfolio Case Study • www.justinbaughn.com • justinbaughndesign@gmail.com • +49 151 23368 2549

Summary

Hands on design leader operating at the intersection of product, design, AI, and business outcomes. Experienced in building high-performing teams, elegant systems, and market winning products in fast-moving scale up environments.

Experience

Head of Design

1KOMMA5°

2023-Present

Founded and scaled the product design function from zero to pre-IPO unicorn.

Led design ops, design systems, and harmonization across our digital product ecosystem. Reduced design lead time by 42% and frontend lead time by 38% across organization.

Led comprehensive product design across 6 products including Heartbeat App, Offer Tool, Order Route, Customer Portal, Service App, and Maintenance Portal.

Highlights: Heartbeat App 4.7 app store rating, 25% reduction in YoY CS tickets

Led AI-design transformation — 100% of designers shipping production code via AI-enabled workflows

Senior Product Designer

Opinary

2022-2023

Owned comprehensive design process for Self Service platform, Stream Ad, and Flex Poll products.

Built & maintained atomic design system from scratch. Directly resulting in 28% reduction in design lead time and 19% reduction in frontend dev lead time.

Releases directly contributed to 34% uplift in company revenue and helped facilitate global partnerships.

Senior designer in team of 4. Directly mentored development of junior & mid designers.

Lead Product Designer

Songstats

2020-2022

Owned comprehensive design process for Audience Tab, Data Integrations, and Promotion Tools.

Audience Tab reached 96% feature adoption rate in 30 days — highest in company history. 24% organic product growth within 90 days of feature launch.

Drove product strategy alongside CEO and CPO to uncover market opportunities and drive end-to-end design of features.

Product Designer

Yance

2019-2020

Owned 0→1 product design for at-home sports training platform.

Drove end-to-end design process from user research, analysis, to final product design.
